Response to Amendment

Election/Restrictions

1. Applicant's election of claims 1-26 in the Interview summary on 6-15-05 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 1-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Marquis et al (6,586,380).

Response to Arguments

Applicant's arguments filed 9-7-2005 have been fully considered but they are not persuasive.

Applicant argues that Marquis et al do not encompass the pH limitation of between 2 and 6.5.

The examiner contends that Marquis et al is silent with respect to the pH, but they teach that the compositions have neutral pH or slightly acidic or slightly basic (col. 2, lines 6-7). Therefore, absent a showing to the contrary, one of ordinary skill in the art would construe slightly acidic to encompass the range of about 6.5 as claimed in the instant application. Moreover, it is held obvious to optimize ranges through routine experimentation and ranges that lie outside but are close may be indicative of obviousness. For it is held, " a *prima facie* case of obviousness exists where the claimed ranges and prior art ranges do not overlap but are close enough that one skilled

in the art would have expected them to have the same properties". *Titanium Metals Corp. of America v. Banner*, 778 F.2d 775, 227 USPQ 773 (Fed. Cir. 1985).

In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
